PAYMENT STRATEGY

Fees and Charges must be paid at the time of making an application or other request for service from Council. The Chief Executive Officer shall charge and collect any additional fee and reimburse any overpayment, subsequently found to be payable.

Where a minimum fee is shown or a fee is quoted, the prescribed minimum or quoted fee shall be paid at the time of making the application or other request for service and the Chief Executive Officer shall determine an appropriate total fee. Any balance in excess of the minimum or quoted fee shall be paid before provision of the service.

All listed uses, terms and conditions listed in the fee schedule are defined in City Plan, Schedule 1 Definitions and, for consistency purposes, should be used in all applications submitted to Council.

Upon commencement of the City Plan, Our Living City: Gold Coast Planning Scheme 2003 Version 1.2 becomes a superseded planning scheme. Each time the City Plan is updated, the version in effect immediately prior to the update taking effect will become a superseded planning scheme. For one (1) year after the latest version of the City Plan commences, a person may request Council to have their application for development assessed in accordance with the provisions of the superseded planning scheme. Upon approval of this request, a development application (superseded planning scheme) can be lodged. Fees and charges for a development application (superseded planning scheme) will be charged in accordance with the equivalent land use, terms and conditions as per paragraph 3 above.

The Chief Executive Officer may require or agree to the lodgement of a security bond as a condition precedent or as a condition of approval of any application.

DEVELOPMENT APPLICATIONS

A development application for two or more of the following development types: Material Change of Use, Reconfiguring a Lot, Operational Work

If a development application for a site includes two or more of the above development types, Council's application fee is the prescribed fee for the development type attracting the highest fee, together with 50% of the prescribed fee for the other development type/s.

A development application for two or more uses of the same development type

If a development application for a site includes two or more uses, Council's application fee is the prescribed fee for the use attracting the highest fee, together with 50% of the prescribed fee for the other use/s.

Applications for extension to lawfully established land use

The development application fee for any extension to a lawfully established land use is calculated on 50% of the base fee plus the gross floor area (if applicable) of the extension only.

Where the fee schedule does not prescribe a fee for any service, a fee shall be determined by the Chief Executive Officer or, if the Chief Executive Officer determines that a prescribed fee is not equitable in the circumstances, he may increase or decrease the prescribed fee. For further information about fees, contact the Development Assessment Review Team (DART) on telephone 5582 9053.
